

St. Leon Armenian School Living Museum Friday, March 312, 2023

Our school's first Living Museum program. Under the guidance of our Culture Teacher, Haykanush Melkonyan, students were given a list of notable Armenians around the world. They chose the person they wished to represent. They researched their person and for the presentation, "dressed the part". Each had a sticker that said "Press to Play". Parents who attended had to press the sticker to have the student start the presentation. It was a great, fun evening enjoyed by all. Students, parents, teachers, and guests learned so much about the notable Armenians represented and students expanded their knowledge and pride in being Armenian.
